# Looking Ahead: New Mexico ACRE

Partners for Employment is developing a nationally certified ACRE curriculum targeted to launch in fall 2026. The curriculum will be nationally-available but New Mexico-specific. It will meet ACRE competencies and qualify learners for the ACRE certificate.

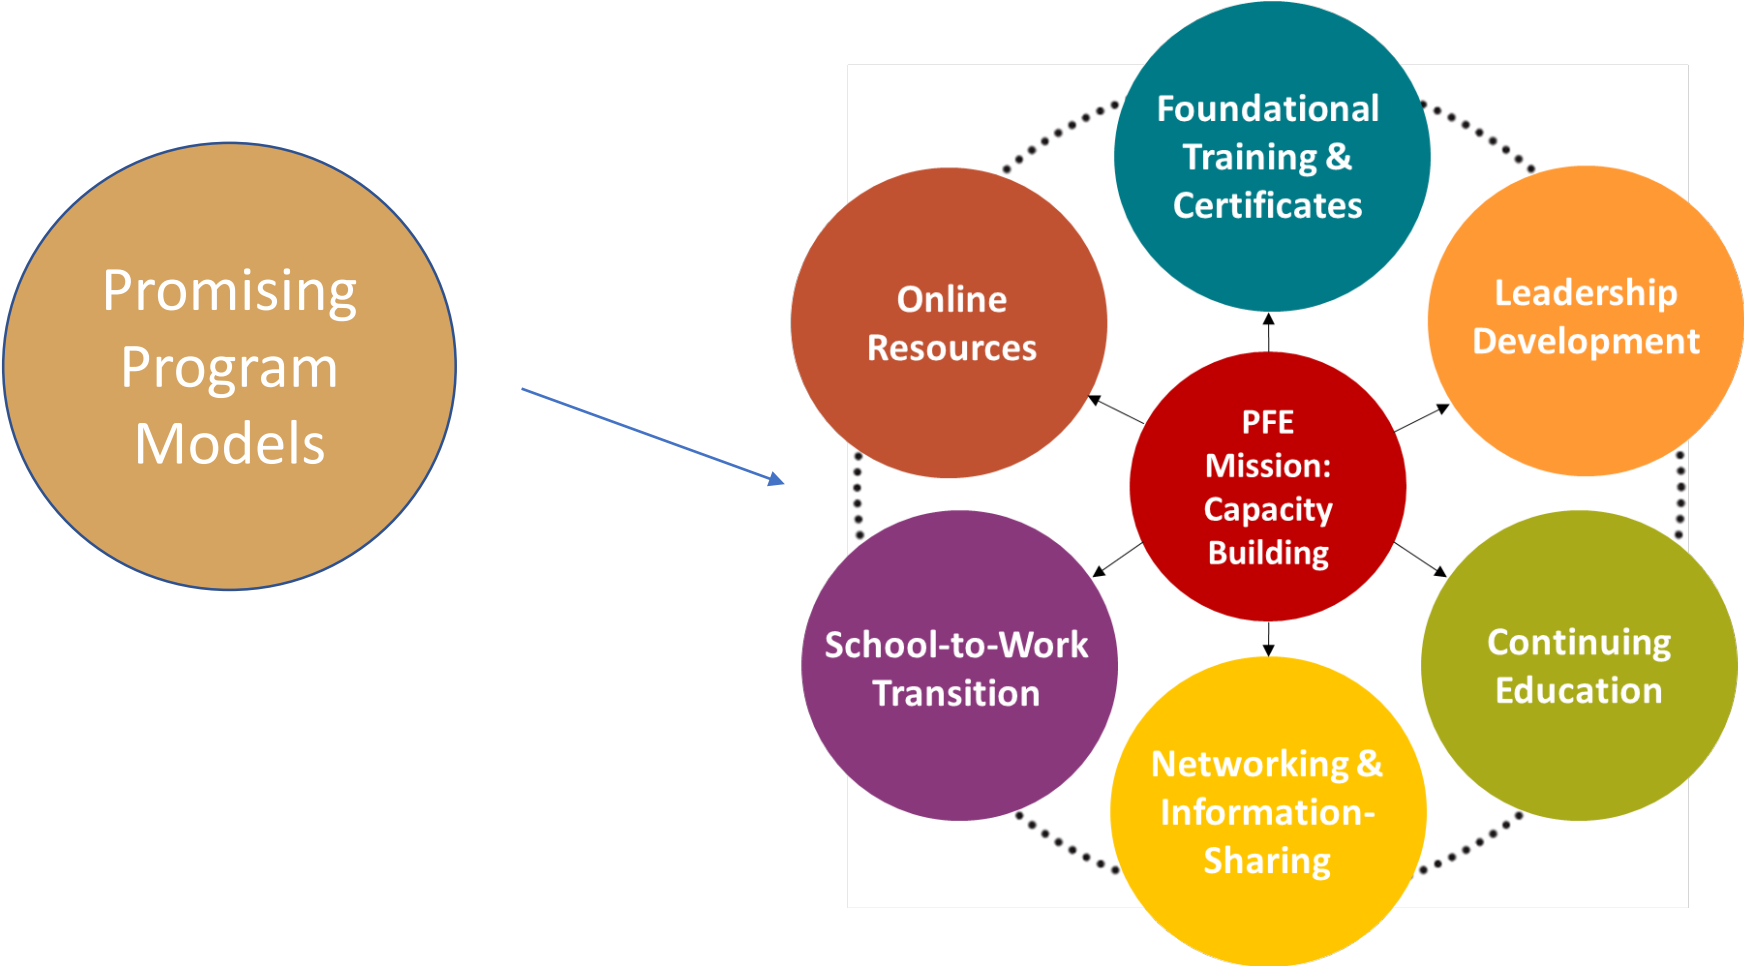

## Looking Ahead:

# **“Introduction to Supported Employment”**

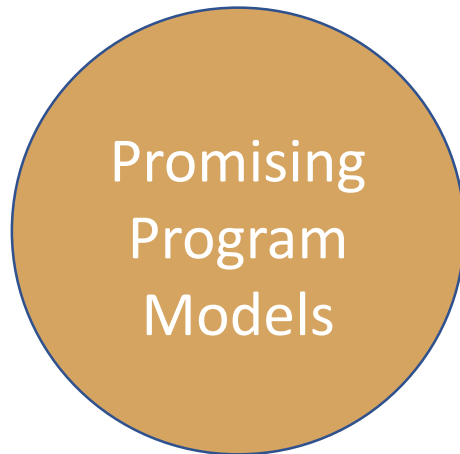

*a course for caseworkers family members and new vendors*

Designed as a “prequel” to College of Employment Services this 3-5 hour course offered three times per year will give caseworkers family members and new DVR vendors basic resources and understanding in person-centered job coaching and job development. It will also familiarize them with the services of DVR DDSD and PFE.

# New capacity-building focus: Promising Program Models in Supported Employment

# Building Capacity: Promising Program Models

Has your organization...

- Created a business model that maintains the integrity of best practices in Supported Employment?
- Found an effective way to schedule staff time for person-centered planning job developing job coaching and long term supports?
- Developed training for new staff and mentor roles for experienced staff?
- Developed procedures for coordinating the transition from DVR (initial employment supports) to DDSD (long term supports)?
- Found effective ways to build an employer network and/or community resource network?

**At FY25 SELL meetings**

**we want to explore organizational-level models for success.**

# Speaking of FY25 SELL Meetings...

**We're assembling a SELL Planning Committee.**

SELL meetings are meant to reflect and serve your front-line questions and interests. Any Supported Employment stakeholder who wants to help shape the topics and information we're discussing as a professional community can serve on the committee.

We'll come together once a month for a 1-hr planning meeting over Zoom.

## **HOW TO SIGN UP?**
